Ms. Émilie-Kim Lepage  
Ubisoft  
5505 St-Laurent  
Montréal, Québec, H2T 1S6

**Subject: Tools programmer (intern) with Ubisoft (Offer: 61952)**

Dear Ms. Lepage,

I am writing to express my interest in the Tools programmer (intern) position with Ubisoft. I am a third year student enrolled in the Software Engineering (Co-op) program at the Gina Cody School of Engineering and Computer Science at Concordia University in Montreal, QC, Canada. I am a member of the Institute for Co-operative Education and have successfully completed two co-op work terms.

I recently completed an internship as a Cloud DevOps Intern in the Cloud Infrastructure department at Cerence Technologies Inc. This internship was an invaluable opportunity to gain experience in the field of devops and cloud infrastructure. I successfully completed multiple tasks such as version upgrades, building pipelines for installations, and others using technologies like Kubernetes, Terraform, Flux, Docker, Helm, WSL and others.

Before interning at Cerence Technologies Inc, I worked as Intern, Software Development with the Design Assistant team at Matrox Electronic Systems Ltd. I used C#, .NET to develop automated tests for the Matrox Design Assistant IDE. I was responsible for identifying and reporting any bugs encountered and analyzing their causes and fixes.

In addition to the internships, I have worked on multiple projects, both personal and academic, individually and as part of teams. Some of these projects include designing the user interface for an online art gallery, building an eCommerce application which is a clone of the Amazon website, using relational and NoSQL database management systems to draw information from datasets, and building an online grocery store website.

I am eager to apply the technical skills I have learnt during my internships and my coursework while interning at your company. I would love to know more about the opportunity and I am looking forward to meeting with you. Thank you for considering my application. I hope you will consider me for the role.

Sincerely,  
Ankita Ingle
